PROFILE

Full-Stack Developer skilled in React, Next.js, Node.js, Express, and PostgreSQL, with experience building scalable, user-focused web applications and SaaS solutions. Strong problem-solving background from 500+ competitive programming challenges, complemented by hands-on expertise in authentication, real-time features, and modern UI design. Passionate about continuous learning, open-source, and creating impactful software.

WORK EXPERIENCE

Freelance Full-stack Developer — 2024 - PRESENT

Full Stack Web Development

- Built and deployed full-stack web apps with React, Next.js, Node.js, Express, and PostgreSQL.
- Developed secure APIs with authentication, real-time features, and third-party integrations (Stripe, Supabase).
- Created responsive, user-friendly UIs with Tailwind CSS, Shadcn UI, and animations.
- Managed full project lifecycle from requirements gathering to deployment and post-launch support.

RoboHunters BRUR

Software Instructor

- Taught programming, web development, and problem-solving through practical sessions. — 2021 - 2024
- Mentored students in competitive programming and real-world projects.
- Created learning materials and encouraged collaborative learning.

PROJECTS

MeDo — Healthcare Platform

Next.js, Prisma, PostgreSQL, Clerk, Tailwind CSS, Shadcn UI, Vonage API

- Built a full-stack healthcare platform enabling patients to book appointments, consult doctors via secure video, and manage their healthcare journey online.
- Implemented authentication, scheduling, and real-time communication with Vonage API.
- Designed a modern, responsive UI with Shadcn UI and React Hook Form for smooth user experience.
- Outcome: Improved accessibility for patients, reduced waiting times, and enabled remote healthcare delivery.

Other Projects

- Contact Pro – Platform for local service providers to showcase and connect with communities.
- ToDoFication – Smart task manager with live countdowns, charts, and automated reminders.
- House Renting App, InsightHub Blog, SaaS Starter Template – Scalable web apps and SaaS solutions.
